The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

STRIKERS ATTACK SOLDIERS.

Maddened by the stationing of a detail of twenty men of the State constabulary around the car barn and headquarters of the Chester, Pa., Traction Company to protect the property because of a strike declared yesterday morning of the employes for recognition of the union and higher wages, 3,000 men and women of Chester, sympathizers with the motormen and conductors, attacked the troopers.

The State police were stoned and mobbed by the strikers, and several officers and civilians were hurt, though none dangerously. The events of the day have aroused the entire populace, and the town was practically under martial law last night, with all the saloons closed and the street car barns and other property of the traction company under guard.

The trouble started when the strikers, with a lot of sympathizers, prepared to stop the running of any cars by strike-breakers.

Several hundred men responded yesterday to an advertisement calling for nonunion motormen and conductors to be sent out of New York. It was rumored among the men seeking employment that they were to be sent to Chester, Pa., and some to Pensacola, Fla. So many applicants appeared at the agents' office, that the street was blocked until the police cleared a passage way.

SUICIDE IDENTIFIED.

It has developed that the man who committed suicide by jumping from the Old Bay line steamer Florida, between Old Point Comfort and Norfolk Sunday morning as the vessel was nearing Norfolk from Baltimore, was C. Adrian Grant, whose legal residence is in Charlottesville, Va., but who divided his time between Charlottesville, Washington and Baltimore. Grant was a member of one of the oldest families in Virginia.

He was a graduate of the University of Virginia and a deaf mute, but was a splendid athlete.

Grant left a note in his state room stating that financial reverses had caused him to take his life. He was fifty years old. His body has not yet been found.

Grant was a son of the late Harry Grant, an Englishman, who came to Virginia a long time ago. Of late years he had been living with his sister in-law, Mrs. Harry Grant, and her family at Charlottesville. Until they moved to Charlottesville the Grants lived at Middleburg, Loudoun county, and were among the most prominent families in that section of the Old Dominion. Grant was an enthusiastic horseman and a daring rider across country.

A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I brought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried it and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a linament. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by W. F. Creighton and Richard Gibson.

THE JEFFERSON DINNER.

The Democratic Club's Jefferson dinner, which Mr. William J. Bryan declined to attend without being allowed to make a speech, passed off at the Hotel Knickerbocker, New York, last night, with never a mention of the Nebraskan's name.

The whole thing passed off as the leaders in the Democratic Club intended it should pass off, and no hard words were spoken about anybody, except President Roosevelt. He was criticised by Senator F. M. Simmons, of North Carolina, who can see in the future, providing executive conditions continue, "the specter of old King George stalking abroad in the land and his incarnated spirit seated in power in the White House."

"The master," said Mr. Simmons, "now overshadows everybody, and dominates everything. The government is 'my government,' the army is 'my army,' the fleets of the navy 'are my ships;' suppliants for legislation, whether they be the railroads, or the trusts, or the labor unions, go not to the Capitol, but to the White House, for the redress of their grievances."

Kennedy's Laxative Cough Syrup acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time allays inflammation. Sold by W. F. Creighton & Co.

Southern Railway Spring and Summer Schedule.

Southern Railway inaugurates its spring and summer schedules today, April 13th, throughout its entire system. It has been found necessary, for economic reasons, to curtail train service in some instances. Nos. 9 and 10, local trains between Washington, Alexandria and Danville, Va., and Nos 33 and 34, through trains between Washington, Alexandria and Augusta, Ga., are discontinued and the schedules of other trains readjusted and the sleeping car lines augmented to fully meet the requirements of the traveling public. The facilities, however, for reaching the various summer resorts and commercial centers of the Southern States, including western North Carolina, Gulf Coast and Texas points and New Orleans, have not been abridged.

Train No. 35, for Atlanta and New Orleans, passing Alexandria on new schedule, 8.32 a. m., and doing local work from Manassas to Danville, will stop at Alexandria to take on and leave passengers.

The schedules on the Bluemont Branch, points along which are liberally patronized by our Alexandria people, will be adjusted later in the season.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

TUESDAY EVENING, APR. 14, 1908.

THE republican leaders in the House, finding themselves helpless, were forced to bring in a new special rule to prevent the democrats from having their way; and this new rule is so drastic that even limited debate is prohibited on House bills which the Senate has amended, which in future will be sent to conference, or the amendments agreed to, without any intervening motion of any kind being allowed. So the Senate can tack on any amendment it pleases, and the representatives of the people will have no voice for or against such amendments. This would appear to be unconstitutional. The rule also provides that for the remainder of the session a motion to take a recess shall be privileged, and have precedence over a motion to adjourn, and that the question shall be decided without debate or amendment. This is the first time that the rule that a motion to adjourn is always in order has been overridden and virtually rescinded. A further provision of the order was that during the remainder of the session it shall be in order to close debate by motion in the House before going into committee of the whole, which motion shall not be subject to either amendment or debate. The fact is the republicans are in a hole, and have lost their temper, and will discover later how these rules many come back to plague them. As no republican protested against this drastic rule, none of them can protest when their own turn comes and the autocratic leaders give them a dose of their own medicine.

MR. R. LINDSAY GORDON, one of the defeated candidates for Congress from this district last year, and who is now endeavoring to persuade the voters to set aside Mr. C. C. Carlin, who is ably representing the district in the House of Representatives, and elect him to the position, followed in the train of Mr. Harry St. George Tucker, a candidate for governor, when the latter visited Leesburg yesterday. At the close of Mr. Tucker's speech Mr. Gordon addressed the gathering, during which he alleged that Mr. Carlin had secured his seat by questionable means in the shape of whisky and money which the speaker said were used at the polls. Mr. Gordon, who has the reputation of being one of the shrewdest politicians in the State, seems to have grown desperate in his desire for Mr. Carlin's seat in Congress, and from the tenor of his speech yesterday he seems to be anxious to attract the attention of the temperance element. When a man is defeated for a position it is useless to attempt to point out how it was accomplished. He has lost in the game of politics—that is all there is to it. We do not know what impression Mr. Gordon is making in his persistent canvass, but, from present indications, a large majority of the people of this district have no desire to change their representative, as he is giving abundant satisfaction, while they at the same time recognize Mr. Gordon's abilities.

GERMANY'S latest armored cruiser, the Bluecher, was successfully launched on Saturday. It has a displacement of 15,000 tons, will have a contract speed of 25 knots, will carry ten 11-inch guns and will require a crew of 790 officers and men. The vessel will be propelled by turbines and will cost $6,915,000. The next battleships to be constructed for the German navy are to have a displacement of 20,000 tons and an estimated cost of $9,000,000 or $10,000,000. These are the toys with which the world power gamesters play the game of balanced capacity for mutual hurt at the expense of the toiling masses. The people of the United States will no doubt be asked to meet the bluff of the German Kaiser with faster and bigger war ships carrying more men and guns. It is fun for the rulers, fine for the shipbuilders and sport for the admirals, but, as says the Philadelphia Record, it is a wearying, endless, needless load for the taxpayers.

A NEW YORK paper last Sunday devoted two pages to the history of the assassination of Abraham Lincoln, which occurred forty-three years ago today. The accuracy of ancient history is often questioned, and no wonder when such glaring blunders are made in describing prominent events which occurred less than half a century ago. The writer in referring to the flight of John Wilkes Booth after he had shot the president says:

"Booth mounted a horse and dashed down to the Potomac, across the Long Bridge and, with one of his accomplices named Harold, fled southward into the wilds of Virginia. But Nemesis rode with him in the shape of a broken leg. This caused him such excruciating pain that he was obliged to halt at the house of Dr. Mudd, near Alexandria, and have the fractured bone set."

Most school children hereabouts know that Booth made his escape into Maryland, where Dr. Mudd lived.

A PARAGRAPH in the Gazette's Washington correspondence yesterday stated that the leaders in Congress wanted to adjourn about May 9th but that as that date did not suit the president he would be asked "to modify his programme and permit Congress to get away before June 1." This is but another illustration of how times change and men change with them. Just go back a few years and think of a Congress asking the president's permission to adjourn! But Mr. Roosevelt has so intimidated the present Congress that it eats from his hand.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 14.

With a view to forcing the direct issue as to weather his pet naval programme for four new battleships should go by the board, as threatened, President Roosevelt sent a stirring message to congress this afternoon, in advocacy of his plan. "To provide for but one or two battleships a year" he says, "is to provide that this nation, instead of advancing, shall go backwards in naval rank and relative power among the great nations. Such a course would be unwise for us if we fronted merely on one ocean, and it is doubly unwise when we front on two oceans. As chief executive of the nation, and as commander-in-chief of the navy, there is imposed upon me the solemn responsibility of advising the Congress of the measure vitally necessary to secure the peace and welfare of the republic in the event of international complications which are even remotely possible. Having in view this solemen responsibility I earnestly advise that the congress now provide four battleships of the most advanced type."

The refusal of the American boy ot stay upon the farm is considered by Secretary of Agriculture Wilson to be a national menace. In an address delivered last night to the Eastern Manuel Training Association, the secretary declared that because of this fact the cost of farm products is steadily advancing and he predicts that the time was fast approaching when the common people cannot afford to eat meat at all and the poor people would be unable to pay for bread. "I want to see the girl who can cook a meal before she sits down in the evening to play the piano," he said, "I would also be glad to see her able to take a twenty mile gallop on horseback after she has done it.

An excuse for setting back the proposition to remove the tariff from wood pulp and print paper was furnished the opposition to the proposal in the House yesterday, by a letter from Attorney General Bonsparte, declaring the inability of the Department of Justice at this time to furnish proof of a paper trust, which is alleged to control the highly increased prices of this commodity.

An epidemic believed to be plague is raging in La Guayra, the capital of Venezuela according to dispatches received at the State Department today from the American Consul at that place.

Today sees the close of the Benning spring meeting and as things now look probably the end of racing for good and all at this track. The horsemen generally are gradually coming to the opinion that Congress will pass the Sims bill and put the Benning course out of business.

Representative John Dalzell, of Pennsylvania, the apostle of protection in the House, has been the butt of another newspaper joke, so he claim. He told his friends at the Capitol today that he had been elected a delegate to the Chicago convention, instead of being defeated, as reported, and further that he had led the ticket by more than 1,000 votes.

Of over 185,844 people in government employ, exclusive of postmasters and their clerks, and mechanics, nearly 14,000 are women and 8,352 negroes. Although half the total are under 35 years of age 137 are over 80 years; 465 over 75 years; 1,557 over 70 years, and 4,364 over 65 years. This is shown in a census bulletin issued today.

Conferees on the widows pension bill reached an agreement yesterday by adopting the bill practically in the form passed by the House. It increases from $8 to $12 per month the pensions of widows of soldiers of the Mexican Indian and civil wars and will increase the pension list about $12,000,000. It is estimated that over 150,000 widows will be benefited by this act. An amendment was added to the bill repealing that section of the present law which prohibits a widow who has an income of more than $250 a year from drawing a pension. Now that the conferees have agreed on the bill, action will be taken in both branches of Congress to secure the adoption of their report and get the measure to the President for his approval, for it will become a law as soon as his signature is attached.

The condition of Thomas McCreary, who was shot by Representative Heflin, was unchanged this morning.

Sixtieth Congress.

Washington, April 14.

SENATE.

The largest audience of the session assembled in the Senate galleries this afternoon to hear Mr. Foraker speak on the Brownsville affair. The preponderance of negroes among the spectators was astonishing. Before 2 o'clock there was a long line of colored men filling the corridors. Nearly every seat in the public galleries and all standing space was occupied by negroes.

Senator Davis was in his seat for the first time since his disastrous campaign in Arkansas.

A dozen members of the embassies and legations sat in the diplomatic galleries.

The Senate adopted the report of the conferees on the widows pension bill. It was presented by Senator McCumber and was passed without debate.

In one of the most sensational speeches ever delivered in the Senate, Senator Foraker this afternoon hurled his long-threatened thunderbolt of denunciation at the head of President Roosevelt, because the Chief Executive had dismissed three companies of negro soldiers as a result of the Brownsville riot.

"It would seem that we are to be carried back in the administration of justice to the days when men and women put on trial for witchcraft found no avenue of escape from punishment, brutality and execution, except only in confession," he exclaimed, in opposing the so-called "administration measure," recently introduced by Senator Warner, which will permit any of the discharged men to reinlist upon "proving to the satisfaction of the president" that they were innocent of complicity in shooting up the Texan town.

He declared that if that bill became a law, it would compel the negro soldiers to appear for justice "before a judge who has already prejudged their case, not once, or twice, or three times, but casually, but officially, and each time with a manifestation of the most unqualified conviction that not only some of the men discharged did the shooting, but that many, if not all of them, had knowledge of the perpetrators which, through a conspiracy of silence, they have refused to divulge." The Ohioan urged the passage of his restoration bill, which would restore the men to their full rights and enable them to get back into the army upon taking oath that they did not do the shooting and were ignorant of the guilty ones. He carefully reviewed the testimony in the Brownville investigation to show the innocence of the negro soldiers.

HOUSE.

After nearly a week's sleep under gag rules, the democrats in the House today awakened sufficiently to require a thirty minute roll call on going into committee of the whole to consider the naval appropriation bill. That was enough to indicate its filibuster is with the minority, even while it sleeps.

The old fight between the army and navy over the location of the naval station in the Philippines stirred the House when a motion was made to strike out of the naval appropriation bill the $100,000 for the improvement of the present station at Subig bay. The navy has been fighting for the establishment of a station at Subig bay, while the army claims it cannot fortify Subig bay and urges that that the station be placed in Manila bay.

Mr. Foss favored Sigsby bay and Mr. Sherley defended the location at Manila Bay.

Mr. Hobson said to make a permanent station now at either place would be merely to prepare a defense for a foreign nation. However, as the United States does not desire to become a military power, the navy should be given the preference in location. Not until the judgment day could a naval station be perfected at Manila, he contended.

A tense feeling prevailed when Mr. Sherley made an attack on Admiral Dewey for his attitude regarding the location of a naval station.

News of the Day.

Mark Twain, the humorist, while coming up on the steamship Bermudian, was nearly swept overboard by a big wave.

Sixteen workmen were injured, three probably fatally, at Evans City, near Butler, Pa., early today in a wreck on Pittsburg, Harmony and New Castle Railway.

A fire, believed to be of incendiary origin, entirely destroyed the Vineland Grange Hall, at Vineland, N. J., this morning. The loss is estimated at 45 thousand dollars.

John E. Sankey, oldest son of Ira D. Sankey, the noted revivalist and hymn writer, was declared insane by a jury in the Supreme Court before Justice Platzke in New York yesterday.

King Edward and Queen Alexandra of England, though far from being the oldest of the royal couples, have been married for more years than any other pair of crowned heads in Europe.

While driving home from a visit to friends in Cabarrus county, N. C., late Sunday night, Arthur Krimminger, aged nineteen years, was shot and instantly killed by unknown persons. The young man had been driving with two young women.

Disastrous floods are reported to have occurred at Hankow, in the province of Hu-Peh, China, and it is stated that 2,000 persons have been drowned. Seven hundred junks were sunk or wrecked. The waters caught the people unexpectedly in the middle of the night.

James Weaver, living two miles south of Waynetown, Ind., was cleaning his back yard yesterday, when the rake caught in the handle of what proved to be an old tea kettle, containing a large quantity of gold in $10 and $20 pieces. The total was nearly $2,000. Weaver has no idea when or by whom the money was buried. All the gold pieces appear to have been coined before the war.

Four persons were carried down ladders to safety by firemen during a fire which partly destroyed the apartment house at the corner of Nineteenth and L streets, Washington, last night; one man jumped from the second story window, and a child was dropped into the arms of firemen. Nine families occupied the house, and timely discovery of the flames and prompt action of the firemen prevented loss of life, as all were asleep when the blaze broke out. The fire was soon under control. The damage is estimated at about $5,000, and was done mostly by water.

THE POTOMAC RIVER.

The dream of a 400-foot channel 24 feet deep, all the way from Washington to the sea, through the many shoals that are now an effectual bar to big ships, may yet come true, if the recommendations of Brig. Gen. Mackenzie, Chief of Engineers of the War Department, are followed by Congress.

Yesterday, Gen. Mackenzie sent to the speaker a lengthy communication from engineers showing the cost of making such improvements in the Potomac river. He unqualifiedly indorsed the proposition, which, if carried out by Congress, will mean that the nation's capital is at last to become something of a real seaport.

The seven shoals which would require dredging under the proposed deep-sea waterway plan are: Kettle Bottom, where 42,000 cubic yards would be removed; Maryland Point, 244,000; Smith's Point (lower), 221,000; Smith's Point (upper), 234,000; Mattawoman, 610,000; Marshall Hall, 116,000, and Naval Magazine, 80,000; total, 1,547,000 cubic yards to be removed.

The cost of dredging, according to Maj. Casby, would be $185,640, while the contingent expenses would be about $18,360, or a total of $204,000.

In 1890 prior to improvement at best only 18 feet could be carried at mean low water over certain shoal spots in the channel below Washington. Since then there has been secured by judgment an unobstructed channel of 24 feet deep and 200 feet wide. A channel 24 feet deep and 400 feet wide when completed will cost about $2,500 a year to maintain.

Virginia News.

Judge Grimsley, who refused licenses to the liquor dealers at Orange Courthouse, allowed them ninety days from the first of May in which to close out their stock. As that will require new licenses to liquor dealers, they have decided to close April 30th.

Two store houses and a mill owned, respectively, by White & Jeffries and W. W. Cairo, at Ossanova station, were destroyed by fire Saturday night. The buildings were partly insured, and the origin of the fire, which started in White's store, is unknown.

Mrs. Elizabeth Singhass, widow of Baker Singhass, a farmer, was burned to death at her home, at Wheatland, Frederick county, Saturday. Mrs. Singhass was burning brush, when her clothing caught fire. She was 73 years old and leaves two sons and three daughters.

Believing that his 16-year-old daughter Mabel is being secreted by friends in Winchester, George Bierarch, of Washington, went to Winchester yesterday and requested the police to aid him in finding the girl. Several days ago Miss Bierarch became dissatisfied with her boarding-house and left. Her father was notified, and has instituted search for the girl. She had not been found last night, but it is believed by the father that she is hiding.

Burhrod Silcott, of Hamilton, Loudoun county, is in jail in Leesburg for violating the provisions of the Byrd liquor law. This is the first conviction, and the novelty of the case has excited great interest throughout the county. Silcott was arrested and given the maximum fine of $50 for giving a drink of liquor to a friend on Sunday. Refusing to pay his fine, Silcott was committed to jail. He has engaged counsel to test the legality of his sentence and the constitutionality of the law.

THE UNIVERSITY.

The 165th anniversary of the birthday of Thomas Jefferson, and the eighty-ninth anniversary of the foundation of the University of Virginia, was celebrated at that institution yesterday, the chief address being delivered by the British Ambassador, Hon. James Bryce.

The attendance was, perhaps, the largest since the inauguration of President Alderman, April 13, 1905. Mr. Bryce was introduced by President Alderman, who incidentally referred to the fact that Tarleton's soldiers chased the general assembly of Virginia from Charlottesville and caused Mr. Jefferson himself to leave Monticello hastily.

Mr. Bryce in part said:

"No one can stand here without thinking much and wishing to say much about Thomas Jefferson, the founder of this famous university, and, next to George Washington, one of the two or three most remarkable men that Virginia has given to the United States and to the world. Yet I must refrain from attempting to describe his striking personality.

"This at least may be said as a matter of universal agreement. Jefferson was a man of a wonderfully vigorous and manysided mind—a man of infinite curiosity and infinite activity. Scarcely a subject of inquiry lay outside of the range of his versatile intellect.

"Whether you like him or not, you cannot help being attracted by him. Whether you think his influence on America wholesome or pernicious, you must admit that influence to have been pervading and permanent. How far it is still a really effective influence, amid circumstances so unlike those which surrounded him, I will not attempt to determine.

"His writings are no longer widely read: his name is more on the lips than are his ideas in the collection of those who claim to be his disciples. But that men should still call themselves his disciples and should nearly a century after his death claim to be maintaining his traditions is a remarkable tribute to his gifts—a remarkable evidence of the power he exerted on his contemporaries."

ANNOUNCED HIS CANDIDACY.

Harry St. George Tucker, late president of the Jamestown Exposition, formally announced his candidacy for governor of Virginia in an address delivered in Leesburg yesterday.

In his address Mr. Tucker said that it was not his purpose to discuss at this time the issues that would be involved in the gubernatorial contest, but that at the proper time he would meet them by public presentation of his views. He said he would be opposed by men of high merit and that his campaign would be conducted upon a high plane and in a manner that would reflect no shadow of discredit upon his opponents nor upon himself.

Mr. Tucker referred briefly to the four terms he served the Tenth Virginia district in Congress, his earnest efforts on the floor of the House to defeat the force bill, and his voluntary retirement from Congress, declaring his public record an open book to the people of Virginia. He confessed that his desire to become governor of Virginia was his life ambition, but declared that the office had no attraction for him if to attain that high position he had to conceal his honest convictions as to what was for the best and highest interests of his native State, or had to resort to methods discreditable to himself or unfair to his opponents.

Mr. Tucker was followed by R. Lindsay Gordon, a candidate to succeed C. C. Carlin, of Alexandria, as Representative from the Eighth Virginia district. Mr. Gordon vigorously denounced the methods used by supporters of Mr. Carlin during the last campaign, and openly charged that whisky was used at the polls and money freely spent to influence votes and to insure Carlin's election. To substantiate these charges Mr. Gordon read affidavits and letters from a number of citizens throughout the district.

Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by W. F. Creighton and Richard Gibson.

Today's Telegraphic News.

New York Democrats.

New York, April 14.—New York democrats, gathering for their state conventions in years past have at times faced peculiar situations, but never has such a tangle been presented as that confronting today's convention to select the four delegates-at-large to the Denver convention. When the delegates went to Carnegie Hall at noon only one thing had been decided—that Thomas F. Carmody, of Penn Yan, would be temporary and permanent chairman of the gathering. Except for this all was chaos.

Shortly before the convention began a special meeting of the state committee was held, but nothing was allowed to creep out while it was in session.

New York, April 14.—Justice Crane, sitting in Brooklyn, today vacated the injunction obtained by Senator Patrick H. McCarren. This permits the State convention to proceed. McCarren's delegates are still on temporary roll and that part of the injunction relating to the names is not dissolved.

The democratic State committee went into session again just before noon, on receipt of news that Justice Crane had vacated his injunction. The convention was postponed until after this meeting and the statement was made that it would probably be one o'clock before it would be called to order.

It was just 1:50 when State Chairman Connors rapped for order The delegates were quick in quieting down as soon as he could be heard Connor presented Thomas F. Carmody as temporary chairman. He delivered the formal speech of the convention.

Anti Japanese Boycott.

Pekin, April 14.—Baron Hayashi, Japan's diplomatic representative here, informed the foreign office today that the Mikado is growing very weary of the Chinese goverment's delay in suppressing the anti-Japanese boycott, and that, unless force is used, the relations between the two governments are going to be seriously strained. While pledging themselves to do all in their power to suppress the boycott, the Chinese officials replied with a notification of the departure of another Japanese ship for China with arms and ammunition believed to be destined for Chinese rebels.

The baron agreed to advise his government of the reported shipment, but in view of the fact, foreign officials say informally, that the Mikado promised to suppress such shipments at the time he forced China to surrender the Tatsu Maru, and seems to be making no particular effort to do it, nothing is expected from him now.

Another Strike Likely.

New York, April 14.—Prospects of another telegraphers' strike, at first considered slight, owing to the supposed disorganized condition of the Commercial Telegraphers, took a more serious aspect this afternoon when it became known that the harmony between the eastern and western operators, the lack of which is said to have resulted in the defeat of the strikers last year, has been perfected. The recent action of the Chicago local No. 1, in voting to strike on June 1 unless a redress of grievances is granted by the Western Union, has been endorsed by New York Local No. 16. Late today it developed that for some weeks a systematic campaign of organization has gone on, and the union officials say that they have taken in many new members and have materially strengthened their finances. Officials of the telegraph companies refuse to view the threatened trouble in a serious light. They say that the backbone of the operators' organization has been broken.

Double Suicide.

Budapesth, April 14.—Each with a bullet in his brain, one still clutching a pistol and the other with his weapon on the floor at his side, each seated in front of the mirror he had used to aid him in aiming at his own head, Majors Nicholas and Paul von Palkovich were found dead today in the dressing room of the suite they occupied together here. The Von Palkoviches were twin brothers, members of an aristocratic but impoverished Hungarian family and fellow officers in the Austro Hungarian army. Hopelessly in debt and in love with the same woman, they resolved to die together. Each man had written a letter to the girl they both loved and the two missives, sealed and addressed, lay on the tables in front of them.

"Died of Pure Joy."

Pittsburg, April 14.—"Died of pure joy" is the wording of the report made by Deputy Coroner John B Black after investigating the death of Andrew Wig, of Loraine, O, who dropped dead in Duquesne Sunday. Wig and his wife, Mrs. Julia Wig, it is said, separated six months ago after a quarrel. About three months ago she went to Duquesne and secured a position. Sunday Wig arrived and hunted her up. He asked her to forgive him and go back to Loraine with him. She consented. They were on their way to a train when he became suddenly ill. He left her on the sidewalk and went into a nearby building. As he did not return she went in search of him. She found him sitting on a bench, dead.

The San Francisco Election.

San Francisco, April 14.—Prohibition was the principal issue in the election held yesterday in a large number of California towns. In the northern sections of the State the victory of the saloon men was almost complete. Vacha ville, in Salona county, and Redwood City, in San Mateo county, were the only points to report a successful campaign against the saloon element. In the southern portions the situation was reversed. There was not a saloon left in Riverside county, the last two cities in that territory which have permitted saloons yesterday voting to close them. Santa Monaca, according to reports received, was the only city in the south to vote in favor of the saloons.

Imports of bananas at Baltimore yesterday reached 83,735 bunches in three steamers from Jamaica.

EUREKA!

Yes, I Have Found it at Last.

Found what? Why that Chamberlain's Salve cures eczema and all manner of itching of the skin. I have been afflicted for many years with skin disease. I had to get up three or four times every night and wash with cold water to allay the terrible itching, but since using this salve in December, 1905, the itching has stopped and has not troubled me.—Elder John T. Ongley, Rootville, Pa. For sale by W. F. Creighton and Richard Gibson.

The Chelsea Fire.

Boston, April 14.—One of the most serious problems that developed today as the result of the Chelsea fire was the reuniting of families seperated during the confusion of the conflagration. A canvass of the refugees has revealed the astonishing fact that the cities of Boston and Chelsea have in their care nearly 200 children who cannot find their parents. Most of them are under 10 years of age and not a few are babies unable to walk. These infants were found by the police and firemen where their mothers had dropped them in the frenzy of flight or where they had been placed while their parents returned to their burning homes in an effort to save their household effects.

The loss by the fire is now placed at $12,000,000. Between 30 and 40 per cent. of the property destroyed was insured. Two men suspected of incendiarism were arrested today.

Admiral Evans's Fleet

San Diego, April 14.—With the arrival of the American battleship fleet today on its first stop on the return to home waters, weeks of festivities will succeed the hardships of the long ocean voyage and the sailors, marines and officers will get an opportunity to try out their land legs once again. Under the immediate command of Rear Admiral Thomas the fleet is now only a few hours sail outside the city. They will arrive off this port promptly at noon, and the disembarkation will immediately begin. All preparations for their reception have been made.

Refused to Confess.

Madrid, April 14.—Juan Rult, the anarchist convicted and sentenced to death at Barcelona at midnight for the January bomb outrage in which a policeman was killed and several persons were wounded, scornfully refused an offer today to save his life by a full confession concerning the "reds" organization throughout Spain.

New York Stock Market.

New York, April 14.—At the opening of the stock market most changes were declines. At the end of ten minutes trading the market presented little feature. The market is again one in which trading and speculative interest is confined to specialties.

CONGRESSIONAL.

In the Senate yesterday Senator Clarke reported favorably a bill by Senator Knox to prohibit the shipment of liquor into "dry" States.

Senator Overman submitted a report favoring a bill to restrict federal judges in issuing injunctions against State officers.

In a short executive session the Senate received and referred three treaties and confirmed several postmasters.

Senator Perkins yesterday introduced a bill amending the Hepburn act so that carriers would be compelled "when called upon by persons to quote the lowest published freight rate between points via all routes, and when requested shall confirm such rate quotations in writing." The Interstate Commerce Commission is directed to investigate all complaints regarding erroneous rates and the bill provides for reparation to cover losses sustained.

In committee of the whole the House took up under the five-minute rule the further consideration of the naval appropriation bill. The bill was about half concluded. The battleship provision probably will be reached today.

At 4 o'clock the last legislative day, Monday, April 6, ended.

By unanimous consent a "clerical error" in the employers' liability bill, recently passed, was corrected.

At 5 o'clock, after a yea-and-nay vote, the House took a recess until today at 11:30.

REVENGE AT THE ALTAR.

The wedding of Cana Kerotivitch, a peasant girl, with a neighbor named Bojin K jopelitch, at Ivanica, in Servia, ended in a terrible tragedy.

The bride became engaged a year ago to the bridegroom's brother, Milioze, just before he left home to do his military service. During his absence she transferred her affections to Bojin, and finally agreed to marry him.

Milioze heard of his fiance's faithlessness, and the day before the wedding deserted from his regiment. He arrived at the church during the ceremony, pushed up to the front, and when he heard his brother and Cana say yes to the priest's questions, he drew a revolver and fired at them both. Bojin was killed, and the bride wounded.

The murderer escaped in the confusion, and has not yet been captured.

THE RAILROAD RATE LAW.

Senator Foraker yesterday attacked the railroad rate law in a new fashion. That law, in its so called "commodity clause," prohibits railroads from carrying coal produced from mines owned by themselves after May 1st of this year. This provision has been giving the big railroads of the country considerable anxiety, most of them owning coal mines, and it is understood that the Department of Justice is willing to enter in a friendly suit to test the constitutionality of the law.

Senator Foraker, however, yesterday boldly attacked the provision by introducing a resolution declaring that the commodity clause shall not apply to property acquired prior to June 29, 1906, the date of the passage of the act.

The borough bank of Brooklyn, one of the financial institutions forced to close during the recent panic, reopened for business today.

MISCALLED "HAIR TONICS."

Most Hair Preparations Are Merely Scalp Irritants, of No Value.

Most hair preparations are merely scalp irritants, miscalled hair tonics. When hair is brittle, lusterless and begins to fall out, the dandruff germ is getting in its deadly work at the root, sapping the vitality. Since science discovered that dandruff is a germ disease there has been only one preparation put on the market that will actually destroy the dandruff germ, and that is Newbro's Herpicide. It quickly reduces scalp fever, destroys the germ; and the falling hair stops, and hair grows luxuriantly. Ask your druggist for Herpicide. It allays itching instantly, and permits the hair to grow.

THE SUB-STATION.

Representative Carlin criticises the commissioners of the District of Columbia in an interview given out yesterday because of the attitude they have assumed regarding the erection of a substation in South Washington. The interpretation made by the commissioners of the section in the Union Station act which provides for the substation is entirely wrong, according to Mr. Carlin. He said:

"I notice, in a statement given to the press by Commissioner Macfarland, with reference to the location of the South Washington railway station, and the duties of the commissioners in reference thereto, that he says: 'The matter does not rest with the commissioners, but with Congress.'

"I am a little surprised that Mr. Macfarland should make the statement which he is reported to have made, because Congress has already acted in the matter, and its action will be found in section 12 of the acts of Congress, 1903, which is in the following language:

"Section 12. That the Philadelphia, Baltimore and Washington Railroad Company shall establish and maintain a substation, with suitable accommodations for passenger travel, at a convenient location north of the Long Bridge, and at a point to be approved by the commissioners of the District of Columbia.

"It is plainly to be seen," adds Mr. Carlin, "that the commissioners not only had the power to require the erection of a substation, but that it was their duty to have done so, and there is no escape from the fact that the delay in the construction of the substation is due to the selection of the government property at Fourteenth street as the site for the station. If the commissioners hold to their present selection, the people of Washington may never have the station in question; because Congress, in my opinion, will never grant any further gift of property to the railroad company, especially when it is a matter of public knowledge that they have an abundance of property of their own at a very much more desirable point at which the station could be constructed."

Mr. Carlin in the interview pointed out the disadvantages of the site selected by the commissioners at the foot of Fourteenth street.

Call for Republican District and State Convention.

[To be held at Richmond, May 14, 1908.]

To the republican electors of Virginia:

Alexandria, Va., April 9, 1908.

Whereas, a crisis has been reached in the management of the republican party of Virginia that, if allowed to continue and if not repudiated by the republican national convention, will drive two-thirds of the republican voters away from the party in this coming presidential election, and which can only be averted by improved party management and a change of policy, in which there will be no discrimination among republican voters; and

Whereas, this crisis has been brought about by the tyrannical and illegal acts of the federal officeholders all over this State (with a few honorable exceptions) in changing the character of the party, from the national republican party to a lily white republican party of Virginia, by taking illegal control of all city, county and district conventions, as well as the State convention held in Lynchburg April 8th, 1908, which was absolutely run and controlled by the federal officers of this State in order to complete their lily white organization and elect themselves, or others who will be under their control, as delegates and alternates to the Chicago convention, in absolute violation of all the rules and regulations of the Civil Service Commission and the President's explicit orders; and

Whereas, there is no provision made, to this date, in any platform of a national republican convention, nor any precedent, to establish the claim of any delegates sent to a national republican convention by a select lily white convention, where a large majority of the republicans are denied the right to participate in their election on account of color. Therefore the great majority of the Virginia republicans intend to submit this great question to the national republican convention to be held in the city of Chicago on June 16th, 1908, for a final settlement; and

Whereas, the various committees and the various city and county chairmen have so acted and manipulated affairs that they have violated the express provisions in the official call for the republican national convention to be held in Chicago June 16th, 1908—which reads as follows: "But provided, further that in no State shall an election be so held as to prevent the delegates from any Congressional district and their alternates being selected by the republican electors of the district"—which said provision has been most grossly violated; and

Whereas we are powerless to right these wrongs save by appealing to the republican national committee and the republican national convention to be held June 16th, 1908, therefore, to that end, notice is hereby given that a district republican mass convention for the Eighth Congressional district of Virginia is hereby called to assemble at Odd Fellows' Hall, Alexandria, Va., on Thursday, the 7th day of May, 1908, at noon for the purpose of electing two republican delegates and two republican alternates to represent this district in the republican national convention at Chicago June 16th 1908, and for the transaction of such other business as may properly come before it.

And further notice is hereby given to each county and city to meet in mass convention not later than May 14th and elect delegates to the republican State convent on to be held in Richmond, Va., Thursday, May 14, 1908, at noon, for the purpose of electing four republican delegates at large and four republican alternates at large, to represent the republicans of the State of Virginia in the republican national convention to be held at Chicago June 16th, 1908, and for the transaction of such other business as may properly come before it, in strict conformity with the call issued by the national republican committee, at Washington, D. C., bearing date December 7, 1907, and signed by Harry P. New, chairman, and Elmer Dover, secretary.

THE DAMAGED HOSE.

Mr. Noble Smith, engineer of the Columbia engine, today received a chemical analysis of a piece of the hose which burst during the fire Sunday. The examination was made by a well known government chemist and showed that a strong solution of sulphuric acid had been poured on the hose. This proves conclusively that the theory advanced by some persons that the cause of the trouble was due to the spilling of acid on the hose by tinners, who were at work in the house not long since, was incorrect, as tinners only use a solution of muriatic acid.

Mr. Smith has reported the findings of the chemist to the Board of Fire Wardens, who will probably meet tomorrow night, when the matter will be reviewed and a thorough investigation ordered.

Mr. Smith last night stated that not long since while at a fire getting ready to force water through the pipes of the engine which connect with the hose he found them closed and only by quick work did he succeed in preventing what might have been an explosion. He further stated that he was certain the deed had been done maliciously, but had been unable to place the responsibility on any one.

INVADED BY NIGHT RIDERS.

Between midnight Sunday and 3 o'clock yesterday morning Dalton, Ga., was in control of a band of night riders numbering over 100 men.

The night riders, masked and wearing long robes, entered the town at a gallop. They proceeded first to the power-house of the electric plant and compelled the superintendent to turn off all the lights. The night riders then found the policemen on duty and marched them to the public square, where they were left under guard.

The riders then searched many houses, saying they were looking for wrong doers, but it seems they did not injure any one. Finally the band called at the home of Rev. Sims, of the Presbyterian Church, and told him that they were with him in his efforts to stop wrongdoing, and urged him to continue his crusade.

After the talk with the pastor the band disappeared.

Gentle and Effective

A well-known Manitoba editor writes: "As an inside worker I find Chamberlain's Stomach and Liver Tablets invaluable for the touches of biliousness natural to sedentary life, their action being gentle and effective, clearing the digestive tract and the head." Price, 25 cents. Samples free. W. F. Creighton and Richard Gibson.

TO REGULATE CORPORATIONS.

A bill for the regulation of corporations was introduced in the United States Senate yesterday by Senator Curtis (rep., Kans). Its principal features are that it provides for the fullest publicity of the capital, stock and business of each corporation through registration with the Department of Commerce and Labor; it prevents the possibility of three or four men obtaining entire control of the organization; and it makes the officers liable to the stockholders for misrepresentations. Senator Curtis says that his measure is practically copied from the British incorporation act which has worked well for years.

Shake off the grip of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will the swelling and soreness be driven out of the tender, inflamed membranes. The fits of sneezing will cease and the discharge, as offensive to others as to yourself, will be stopped when the causes that produce it are removed. Cleanliness, comfort and renewed health by the use of Cream Balm. Sold by all druggists for 50c, or mailed by Ely Bros., 56 Warren street, New York.
